

## Patient Portal Now Active!

We are pleased to announce that the patient portal is now available to all patients. Through the **portal** you are able to review some of your test results and office notes. You can also make prescription and appointment requests. If your access has not been **activated** please contact our front desk for an invitation email.

Calling the main number **770-887-3255** gives you a series of prompts- **press option 5** to get Dr Singh's office. From there you can contact **the front desk, our medical assistants, or leave a prescription refill request**. You can also leave messages for Crystal, Caroline or Dr Singh directly. Also, our **fax line number has changed 470-695-7349**.

**Medication Refill Line – option 5 then option 2.** Please leave refill requests on this line to ensure prompt receipt. Sometimes the pharmacy may send information to the old office which delays the refill so please call well in advance.

We are very pleased to welcome **Julianna Zabala** as a research coordinator with NSC Research and **Taylor Dean** as our stress test technician. Both these talented individuals also work at medical assistants with NSC Cardiology.

Follow us Through Social Media

**In order to transfer your care, you need to REBOOK** your follow-up appointment with our new office. Please call **770-887-3255 option 5** and also download the medical record release from located on Dr Singh's website [www.heartdrsingh.com](http://www.heartdrsingh.com). The website also has our **new patient and follow up forms** that can be filled in advance of your visit to save time. This only needs to be done once

Appointments can also be booked online through **Zocdoc.com** app often for the same day! We have experienced some delays in getting old office notes and picking them up or having them emailed to you by [ganthony@ahsmed.com](mailto:ganthony@ahsmed.com) from the AHS offices is often the easiest way to expedite care.
