

Billing Company To Change Soon!

We understand that there have been many issues with the billing office. As a result of our practice will be changing our billing company from NAHVC/Kavanant to MEDCONVERGE as of Sept 16th 2021. Presently if you have a query regarding your bill please call 470-297-6705 and a billing agent will take care of you. If your billing issue is not resolved kindly call Kapil (Kavanant) 470-297-6702 or Dr Bhaskar Reddy (NAHVC) 678-977-7575. Also email your questions / concerns to kapil.w@kavanant.com with crystal@nsccardiology.com copied on the email. Please include your name, date of birth, and account number if you have it. We look forward to improving the billing experience soon!

Cumming Office – We understand that our Cumming office location is not ideal as testing is unable to be performed on site since the space is subleased from a surgeon. Finding space on the Northside Forsyth campus is a challenge but we hope to identify new space soon that will allow for a broader range of services.

Student teaching- You may know that Dr Singh is a Clinical Assistant Professor at both the Medical College of Georgia and now also at Mercer University in Atlanta. You will likely see a student with him both in the clinic and hospital.

Drug Coverage Assistance

As all our patients know drug costs can be very expensive.

For commercial insurance- please always ask for discount cards from our office or the drug company website that can significantly reduce your copay!

For Medicare and self pay - please ask for or download our 1-800 list to check with the drug company directly for any financial assistance.

Unfortunately drug samples can only be given when first initiating treatment to assess safety , tolerability and initial response
