

Our new HEART PROTECTION PREVENTION PROGRAM has started.

Preventing heart attacks, strokes and loss of limbs is a major focus of what we do. Identifying risk early allows one to make the necessary changes. If you, or someone you know is concerned about their heart health then please consider this package which includes a **stress test, vascular imaging, rhythm analysis, coronary calcium score, blood tests, along with a 10 year as well as lifetime risk score.** No insurance is needed for this \$750 package that can be paid in up to 3 installments. Results are reviewed with Dr Singh and Taylor Mabe. In addition, the package includes 1 year access to our live small group lecture series where you have the opportunity to have any of your heart questions answered. *This program is not recommended for individuals having symptoms which can be addressed promptly by our office team.*

To book your screening visit please call the office at 678-208-0165 or email Lindsey@nscardiology.com

Our billing company has changed. For all billing inquiries, we have a new number **866-949-1215.**

Copays, deductibles, payment plans – it's that time of the year again when deductibles reset and insurance cards need to be reverified. Please be prepared for your office visit. We will try and notify you in advance of the expected deductible but often the insurance companies are slow in providing the information. If our estimate is incorrect our billing office will work quickly to refund any excess amount. In general, we don't have a payment plan option but can offer a 50%-25%-25% 3 month plan if needed.
