

HEART PROTECTION PREVENTION PROGRAM – Lecture Series

The first of our free lecture series was presented earlier this month by Dr Singh! Join Taylor Mabe on Saturday June 10th at 11am in our Johns Creek office for a presentation entitled “**Atrial Fibrillation and Device Technology**” This informal event also is a great opportunity to have general questions answered.

Preventing heart attacks, strokes and loss of limbs is a major focus of what we do. Identifying risk early allows one to make the necessary changes. Please **help someone you know** who is concerned about their heart health by considering this package which includes a **stress test, vascular imaging, rhythm analysis, coronary calcium score, blood tests, along with a 10 year and lifetime risk score.** No insurance is needed for this \$750 package that can be paid in up to 3 installments. Results are reviewed with Dr Singh and Taylor Mabe. *This program is not recommended for individuals having symptoms which can be addressed promptly by our office team.* To book your screening visit please call the office at 678-208-0165 or email Lindsey@nsccardiology.com

TELE HEALTH – Unfortunately many insurance companies post pandemic are no longer covering telehealth visits. We understand that this can be a very useful and convenient tool to review test results or get concerns addressed without the long drives or in office waits. We will therefore continue to offer telehealth visits at a self pay rate of \$75.

BILLING INVOICES – Corrected invoices will be sent out soon. If you have concerns or need clarification please don't hesitate to call. For all billing inquiries, please call Vilas at **470-820-7733.**

Welcoming Dr Jason Reingold to NSC Cardiology

NSC Cardiology is pleased to welcome Dr Jason Reingold to the practice. Dr Reingold has trained at some of the nations top schools including University of Georgia, Emory University, University of California- San Francisco and Harvard University. He has practiced in the Atlanta region for over 8 years.

Dr Reingold's focus is on preventative cardiology and includes an innovative holistic heart program. He will run clinics out of the Johns Creek office- suite 1402 , Cumming office- suite 345 and may also have a satellite office in Alpharetta.

Together NSC Cardiology will be a stronger team that will continue to deliver the highest quality care to our patients.
