

## CLINICAL TRIALS SUCCESS...AGAIN

This has been an exceptional year for our research program. Two major breakthroughs – A cholesterol lowering drug, bempadoic acid (Nexletol) was shown to reduce heart attacks and revascularization in pts who cannot tolerate statin therapy. The weight loss drug semaglutide (Wegovy) was shown to reduce heart attacks, strokes and deaths in patients with a BMI over 27. NSC Research and Dr Singh's team remains at the leading edge of new therapies for weight loss, heart failure, atrial fibrillation and lipid lowering. Consider participation in our clinical trials when eligible!

**HEART PROTECTION-** Preventing heart attacks, strokes and loss of limbs is a major focus of what we do. Identifying risk early allows one to make the necessary changes. Please **help someone you know** who is concerned about their heart health by considering this package which includes a stress test, vascular imaging, rhythm analysis, coronary calcium score, blood tests, along with a 10 year and lifetime risk score. **No insurance is needed for this \$900 package that can be paid in up to 3 installments.** Results are reviewed with Dr Singh and Taylor Mabe. *This program is not recommended for individuals having symptoms which can be addressed promptly by our office team.* To book your screening visit please call the office at 678-208-0165.

**Dr Jason REINGOLD** – is no longer with our practice. His patients are welcome to stay with NSC Cardiology or contact his office at 770-755-5825 to transfer medical care.

**BILLING INVOICES and COLLECTIONS**–If you have concerns or need clarification please don't hesitate to call our billing office at **678-695-8202**. If you are in collections we unfortunately cannot see you until payment in full is made to the collection agency. We are soon going to introduce online payment options through your phone or portal that will simplify the payment process.

## Welcoming Martie Rudd and Zoe Anderson to NSC Cardiology

We are pleased to welcome Martie Rudd as our new Manager of Operations and Patient Relations. Martie comes with a wealth of experience and the professionalism and compassion needed to guide our practice towards excellence. She also is a professional singer and enjoys the live stage!

We are also pleased to welcome Zoe Anderson as our Lead Medical Assistant. She had worked internationally and now brings her expertise and enthusiasm to lead our team of medical assistants!
