FINANCIAL POLICY

We are all aware of the crisis to healthcare financing nationwide. Quality, personalized medical services may sometimes be expensive and we are working hard to contain costs on your behalf. There is much misunderstanding regarding the role of insurance and other “Third Party Payors” in the process. The following is an attempt to explain our policies in this regard:

1. Services are provided to patients, not to insurance companies. Private practice medicine is Fee-For-Service and implies a contract between patient and provider.
2. Insurance contracts are between companies and beneficiaries (patients) for reimbursement of certain covered expenses.
3. In cases where we do have contracts with managed care providers we will comply with their regulations. In other words, we will be filing your claims with the appropriate carriers and collecting your copay at the time of services. Please become familiar with your insurance requirements.
4. Patients covered under HMO or PPO are responsible for their copay at the time of service. They are also responsible for any portion of charges designated by the insurance company.
5. In order for our business office to file your insurance correctly, you must give the receptionist a copy of your most current insurance card along with your valid referral number at time of service.
6. If your HMO policy requires you to have a referral number, you are responsible to provide the valid referral number at time of services for each visit.
7. Patients electing to be seen out of network will be responsible for payment at time of services.
8. Patients covered under Medicaid must present current card and copay when applicable.
9. Recipients of medical care are expected to pay for those services whether covered by insurance or not. Insurance coverage is determined by your contract with the company.
10. If your insurance turns down a claim because it is not a covered service under your plan, or because it is a preexisting condition, etc., you are responsible for payment of these services.
11. If a Self-pay service is elected the service will not be filed through insurance companies.
12. For certain services (i.e., Procedures, Hospitalizations) we will assist you by filing a claim on your behalf to your insurance company. Bills not paid by insurance remain the responsibility of the patient.
13. In situations of severe financial hardship, this office will consider making special arrangements on a case-by-case basis. Please discuss this with our office manager immediately if you feel it applies to you.
14. We will mail / text you three statements once your insurance has settled your claim if you owe a balance. If you have not paid the balance or made payment arrangements, the account will be turned over to collections. In the event your account is sent to a collections agency for nonpayment you will be charged an additional \$50 collections fee. Medical Device and Nuclear Medicine fees are subject to collections.
15. Any returned check written to our practice will incur a charge of \$35. This will be added to your account for collections.
16. There is a \$50 fee for missed appointments if we are not given at least a 24-hour notice. This fee is not covered by insurance and will be due prior to your next appointment being scheduled. Non payment will result in your account being turned over to a collections agency.
17. We are all here to serve. If you have remaining questions, our billing office and NSC Cardiology staff are ready to help find the answers.

I hereby understand the financial policy of this office.
