ABOUT NSINGH CONSULTING LLC

Established May 6, 2014 with a single shareholder Dr. Narendra Singh who is president of the organization. Vice President – Tracy Reganall and Secretary Treasurer – Crystal Richards.

The Corporation capitalizes on the expertise of Dr. Narendra Singh for educational, research, consultative and clinical purposes.

ABOUT DR NARENDRA SINGH

Dr Singh graduated in the top ten of his class from Dalhousie Medical School in Halifax Nova Scotia and went on to complete a residency and cardiology fellowship at the University of Toronto. He practiced for 8 year in Toronto at Rouge Valley Health System- Centenary site. He has previously been director of Scarborough Cardiology Research, cofounder of the GTACC-Greater Toronto Area Community Cardiologist organization, and also past National Secretary of the Canadian Cardiovascular Society.

He moved to Atlanta in 2002. He was a partner with Northside Cardiology PC and subsequently joined with Atlanta Heart Specialists, LLC, for 10 years. In July 2020 He formed **NSC Cardiology** and **NSC Research** where he is Director of Clinical Research. He works in partnership with US Heart and Vascular.

He has been a Lecturer at the University of Toronto, Clinical Assistant Professor at Emory University and now with both the Medical College of Georgia at Augusta University and the College of Health Professions at Mercer University in Atlanta

Dr Singh is currently a director with CCRN- Collaborative CME and Research Network and leads CCRN-USA. He is also a director with SANSAR – a national health charity focused on increasing awareness and research for South Asian heart disease.

Dr Singh is a Fellow of the American College of Cardiology, American Heart Association, Royal College of Physicians and Surgeons of Canada and the Canadian Cardiovascular Society. He is also a professional member of the European Society of Cardiology.

Dr Singh has been a site principal investigator in over 175 national and international trials. He actively designs and conducts independent research. He has published extensively on topics ranging from acute coronary syndromes, health outcomes, disparities in access to care and South Asian heart disease.
